REPORT STEEL WAGES

WILL RISE 10 PER CENT.

Advance for Common Labor

Remored in Pittsburgh.

Special Dispatch to THE NEW YORK HERALD. PITTSBURGH, Oct. 21.—The report is widely circulated that the big steel companies will advance the wages of common labor 10 per cent, November 1 in the hope of remedying the serious shortage of that class of workmen. Most of the steel mills could operate at fully 15 per cent. greater capacity except for their inability to get enough laborers.

The immigration laws, which have checked the flood of cheap foreign laborers to this country, are believed to have a direct bearing on the situation. Mine operators and railroads are paying higher wages than the steel mills for common labor, and it is realized by the steel operators that to compete with these other corporations they must offer the same pay.

A prediction is that the steel companies will turn to the negro if the shortage of white labor becomes much more acute.

SECRETARY DAVIS GETS

BACK LOAN AFTER YEARS

Cabinet Officer Nearly Forgot

'Worthless' Jersey Debt.

Several years ago James J. Davis, Secretary of Labor, lent \$1,500 to a Hudson county, New Jersey, man, taking a second mortgage on the property of a relative as collateral. The debt was not paid. The mortgage proved worthless.

Mr. Davis forgot about it.

Some time ago, when talking with a friend, William J. Egan, City Clerk of Newark, the Secretary happened to recall the debt and asked Mr. Egan to try to collect it. Secretary Davis made an address in Elizabeth Friday night. As he was leaving the hall, he was met by Mr. Egan, who informed him that he had arranged for the payment of the debt and that a check would be forthcoming within a few days. Both the Secretary and Mr. Egan are prominent members of the Moose lodge and have been friends 16 years.

Commencing Monday—A Timely Offering of

Smart New Fashions in Women's Gowns, Coats and Suits

Achieving charm, originality, and distinction through the skillful use of smart lines and colorings, this apparel emphasizes these qualities still further by a pronounced beauty of workmanship.

Frocks, coats, and suits for all the varied occasions of Winter. And just as they are conspicuous for their high quality, so they are doubly conspicuous in their marked moderation of price.

The GOWNS may be paneled or draped

Such a varied array from which to choose! There isn't a clever new idea in drapery, there isn't a graceful new treatment of panels—and panels are a synonym for slenderness—there isn't an engaging new neck-line nor a novel sleeve effect that isn't interpreted here

Tailored frocks for street wear, soft crepes for afternoon hours, chiffon velvets for dinner or evening-gowns, in every lovely Winter fabric and coloring are included. All have about them those important little touches which make a frock so gratifyingly different.

(Two models illustrated at left.)

\$58.00

The WRAPS include imports and copies

And Winter wraps! Here one may well become enthusiastic, for not only have the designers excelled all previous efforts in beauty of line, but the fabrics, too, are richer, softer, and deeper—light in weight, but impenetrably warm in the bleakest weather.

Many of them are trimmed with deep collars and cuffs of fur; some have panels edged with fur, others still show wide fur borders. Sizes 34 to 54½.

A variety of models which will smartly meet the needs of every occasion! In the favored colorings of Autumn. All are lined with silk and warmly interlined.
